36	Notes:		¹ Recidivism calculation includes all graduates for last three years, since July 1, 2005												
37			-- As a point of comparison, the drug court national average for recidivism is 25.7% two years after graduation.												
38			-- As a further point of comparison, similar offenders who did not attend a drug court reoffend at a 40-60% rate.												
40			² As a point of comparison, the average daily cost of incarceration across New Mexico, for both males and females, is \$81.35												
41			³ National average for drug court graduation rate is 47% , according to a 2001 meta-study of drug court evaluations.												
42			⁴ "N/A" indicates that the program is too new to have collected the data applicable to this performance measure
